EXCLUSIVE! Industry contacts
only for students of our online
training 'Natural Fabric Dyeing:
Eco Colour, Print & Pattern'

www.NaturalFabricDyeing.com

little black book of natural fabric dyeing

Welcome to The Wild Dyery's Little Black Book of Natural Fabric Dyeing!

One of the greatest challenges for new artist and makers is sourcing materials and suppliers. It's a treasure hunt that takes many professionals' years and most people guard this information fiercely. We feel that our students deserve ALL the help we can give though so we are sharing our industry contacts exclusively with our subscribed training members only (please do not share outside of this group!) as a thank you for joining our course.

Inclusion in this directory is not an indication of our endorsement or guarantee of quality. Whilst we have used some of these suppliers, others were recommended by third parties so it's imperative that you make your own decision based on the information given on each individual website.

Suppliers are split into categories 'Natural Dye Suppliers' which includes mordants, assists, equipment, utensils etc. and 'Fabric Suppliers' which includes fabrics and product blanks. These are further categorised by country.

If you'd like to show some support to a supplier you've had a great experience with and think they should be included here, please email info@TheWildDyery.com
